mailed them regularly. Addresses thanged as

POOR CHICAGO!

often as desired.

Poor old Chicago! She's a busted Nobody wants the time warrants that she is issuing to save her from going to the almoner's, and as she cannot issue bonds and there is no other financial straw to which she can cling, the poor old insolvent thing is on the brink of despair and can think of nothing else but going over the hills to the poorhouse.

Oh, what a fall is here, my countrymen! This haughty queen of the only rive, on this continent that gives forth a perfume, who erstwhile lolled in luxand gleamed with splender and pay, and there is none so idiotic as to purchase them. We extend our sympathy to the old lady in reduced circumstances and move that a penny subscription fund be started to keep on her large and once luminous feet.

Patrolman Lake, who tried to stop a runaway in Broadway yesterday and estimates of population. fell under the wheels of the vehicle the horse was dragging after him, is one of the members of the force that Roosevelt should promptly extend his hand to. He is also one of the people's kind of

CHINESE IMPUDENCE.

The reports from Washington to-day concerning the Chinese massacre of American and English missionaries at Kuchen and outrages at other points are very likely to stir the blood of all who have more of that article in their veins than the fishes caught at Gray We are told that the Chinese officials

have positively refused to allow the American Consul to make any investigation of the robberies and murders, or even to be present at the pretended examination of the thieves and murderers by the local authorities.

This, it is added, "is not a matter of great surprise to the State Depart-ment," the refusal being attributed to "the well-known desire of the Chir to conduct such inquiries by their own people, their dislike to having any in terference by outsiders and the general suspicion with which they look upor

The American people would be pleased to hear that not only the "surprise" but game. the "indignation" of the Government at Washington was aroused by the insulting and humiliating report from China, and that a protest would be made by American vessels of war, with orders to speak in their own language

When will the fishing be over at Gray

According to the preliminary reports Mr. Brice, of Ohio-New York, has "the fight of his life" on his hands. But, according to the same sort of reports. Mr. Quay, of Florida-Pennsylvania, was recently in the same fix. The Republican Quaker boss, thus far, hasn't found struggle enough even to blister his hands, and the dictator to Ohio's Democracy perhaps feels correspondingly encouraged. Nevertheless, there may be a difference yet, you bet,

WAS SHE IVENGALIZED !

A cottage at Long Branch, on Hooper the landing - Kabas Cits Star. avenue, was entered by burglars last night and robbed of a gold watch. might and robbed of a gold waten, twenty-five dollars in money, a lot of eller and other articles. whether in a sort of trance she really imagined it to be a dream. Sounds will associate themselves with the matter of a dream and why not figures dimly seen

in a half-waking condition? Perhaps it was fortunate for both Mrs. Quinlan and her husband that she was not more wide awake.

It is trusted that the inquest over the West Broadway disaster will even yet bring out some one thing that was done right about Ireland's fated building.

INDICT THEM ALL

"The Evening World" congratulates itself on the progress of the inquiry into the fall of the West Broadway death-trap. To its determined demand for justice on every man responsible for the cruel crime may justly be at tributed the prompt issue of a warran for the arrest of John B. Ireland, the owner of the building, and this will probably bring him to-day before the Ceroner's jury.

Assistant District-Attorney McIntyre expresses the opinion that Ireland can e indicted for manslaughter. He be lieves that the contractor, Parker, car be punished under the building laws but regrets to say that he thinks he cannot be held for manslaughter. In this we hope Mr. McIntyre will find himself mistaken. A more cruel and unnecessary crime than the slaughter of those poor victims of the Ireland building cannot be conceived, and "The Evening World" will not cease in its lemand for justice until every person in any way responsible for the deaths and for the sorrow, suffering and misery they have occasioned, has been punished.

China won't let America and England nvestigate the massacre of the missionaries through their consular rep esentatives. There would possibly be an unpleasant period for the Celestial Empire if the two nations interested should choose to press investigation by other means.

THE SENSATION OF THE HOUR.

The arrival of Valkyrie III. the been the sensation of the hour, and, truth to say, her appearance has not increased the confidence of the America Cup defenders.

No one who looks at the English boat can doubt her power and her speed. Her lines are perfect. In size she appears larger than Defender, and con-veys to the eye the appearance of greater strength. She will evidently arry a bigger spread of canvas than the American boat, and, while many ex perts think she will have to allow De-fender time, the loss will be much more than compensated by her gain in power The crews of the rival boats cheered each other heartly yesterday when De fender, in tow of her tender, went to her mooring place inside the Horsesho It was the first glimpse of each other the great boats had enjoyed, and no one could help wondering which would show the other her stern in the great contest Certain it is that the Defender people are not discouraged and fully expect victory. Let us hope their expectations will be fulfilled.

Five hundred new parrots arrived t town yesterday. They will soon learn To the Editor to remark that the Sunday law will be enforced, so long as it is on the books.

Value of Magnesia.

A cake of magnesia is a good friend to the economical woman in these days of many light frocks. Rub the soiled spots on both sides of the goods when the dress or waistcoat is taken off, and after airing hang away with the mag-nesia still there. When the dress is wanted again dust the magnesia off lightly, and it will be found to have carried away part of the soil and to hide the rest. A light dress may thus be kept immaculate in appearance several days after it would otherwise have to go to the cleaner.

they are, too. The pretty pelerines, made of lace and ribbons, with the long ends crossed under the bust, carried round the waist and tied in a bow ried over the thread each time it is in-seried in the work is clearly shown in clearly female relatives as well.
